Sixteen Billions a Year. New Friend, Bacteriophage. Our Homeless Native Born. Foolish Boycott.

Have you any idea what crime costs the nation? The total amount is SIXTEEN THOUSAND MILLION DOLLARS A YEAR. There are about one million professional criminals in the country, including the crop of prohibition super criminals.

The Government could pension them at the rate of $16,000 a year each, break even financially and save the lives taken by the criminals. Or the chief criminals could be profitably pensioned at $1,500,000 a year each, leaving plenty for small fry.

It costs the nation $16,000,000,000 to take care of 1,000,000 criminals. And five billions, less than one-third of the crime bill, is the amount spent on 55,000,000 children in their parks, their schools, their playgrounds, and all welfare work.

That's a very nice picture of American civilization.

The word "bacteriophage" that means little now to human beings, may some day mean more than any other word in the language. Discovered by Dr. Felix d'Herelle, who teaches bacteriology at Yale, the bacteriophage substance has the faculty of destroying bacteria throughout the body. The word means "germ eater."

In treating Asiatic cholera with bacteriophage, Dr. d'Herelle lost eight per cent of patients. Of those lacking bacteriophage treatment more than 62 per cent died. Dysentery, which kills millions in hot countries is made harmless by bacteriophage. The new substance is complicated, not thoroughly understood. It develops naturally in the human body as disease dies out and completes the cure. It is probably the most important discovery of many years.

The President soon must write a Thanksgiving proclamation, and is wondering, perhaps, what there is to say.

Schools To Have Music Supervisor

Mary Booker To Give Vocal Instructions Here And At Pamplin

A supervisor of vocal music in the grades for the Pamplin and Appomattox schools will be employed as soon as arrangements can be made, it was decided at a meeting last Monday afternoon of a committee comprised of Mrs. Ned A. Wagers, Miss Kate Franklin, Miss Mildred Kelley, Miss Perizza Coleman, J. A. Burke, the Rev. W. H. Thompson, and L. Crawley.

The supervisor will visit the Pamplin and Appomattox schools once a week giving instructions in choral music, taking each grade separately for one period. Her work will also include working out plans for the work of the classroom teacher with the pupils.

The plan of having music supervision is fostered mainly by the Parent-Teacher Association in co-operation of the county school board and the churches. The school board has appropriated $15 a month towards the salary of the supervisor for the next seven months, and the remainder will be raised by Pamplin and Appomattox organizations. The amount to be raised by each school will be proportioned in ratio to the enrollments.

Interest in the music supervisor plan for the local schools was developed through the aid of Dr. Alfred H. Strick, professor of choral music at Farmville, who is stimulating and encouraging the use of music in the schools of a group of nine counties.

Miss Mary Booker, accord[illegible] arrangements, will begin [illegible] 26th.

Conference With Hart Reported At School Board Meet

At the monthly meeting of the school board held Wednesday morning, Superintendent Jerry A. Burke reported his conference with Harris Hart, state superintendent of Schools in which the local Board asked the state for $12,000 needed to maintain the county schools for the remainder of the year.

Mr. Burke reported that Mr. Hart was sympathetic with the needs of the county and promises to give what aid he might be able to.

Much needed minor improvements which have been made recently at the Appomattox High School were reported at the meeting. A letter was read from the state superintendent asking that the board allow the children in the schools to participate in the sale of tickets for the Washington Bicentennial in 1932, the money to be used for the purchase of the George Washington boyhood farm in Stafford County.

The board decided that it would be best to postpone the sale of tickets in this locality for the time until conditions improve. Monthly accounts were approved.

Byrd Expresses Hope That Pulpwood May Be Moved

SENDS INFORMATION ON EFFECT OF RUSSIAN WOOD ON MARKET

Hope that the purchase of pulpwood in Virginia may be expedited, thus to a great extent relieving the critical situation left by the drouth in many sections of the state, is expressed by former Governor Harry F. Byrd in a letter to the county drouth relief committee.

Information as to the effect the importation of Russian pulpwood has had upon the sale of pulpwood in Virginia, which Mr. Byrd obtained at the request of a number of county committees is contained in the letter.

Governor Pollard has communicated with the purchasers of pulpwood in Virginia urging them to purchase pulpwood in as large quantities as possible, according to the letter. Former Governor Byrd further writes he is informed that at least one of the purchasers of pulpwood has renewed his contracts two weeks earlier than usual.

Secretary Hyde in a letter to Mr. Byrd writes in part:

"It appears that the quantity of pulpwood imported from Russia has so far been relatively small in comparison with our total imports of pulpwood. Very little of this [illegible] reached [illegible]

Hunting Season Opens Saturday

Beginning with Saturday, Nov. 15, hunters have open season on all wild game until January 31, with the exception of deer, which is not to be killed after Dec. 31, according to state law.

Bag limits provided on by state law are as follows: Wild Turkey, 2 a day, 6 a season; Pheasants, 4 a day, 20 a season; Quail, 15 a day, 150 a season; Squirrels, 10 a day, 150 a season; Deer, 1 a day, 2 a season.

Sportsmen are warned that diseased ducks are to be found floating in the Potomac near Alexandria, and that any birds killed on the water should be discarded if an abnormal reddening of the intestinal tract is noticed. Birds killed on the wing can be eaten without fear.

Senator Ferguson Pledges Support In Red Cross Drive

Senator S. L. Ferguson yesterday expressed himself as 100 per cent behind the Red Cross drive for membership and ready to give it his support.

Senator Ferguson spoke of the Red Cross as always ready to send aid in every emergency. "No one is perhaps in a position at present to make great donations, but if every one does his share the membership should reach a thousand in the county," he said.

A fundamental, he said, is that the strong shall help the weak. Help may be needed in this county, he added, and in that case the people will need the Red Cross. He also spoke of the efficient committee, which will investigate all applications and give help where it is really needed.

The chairman for the various districts have been appointed by Miss Eula Mae Burke, chairman of the county chapter, and the drive is now under way. Alfred O'Brien is in charge of the Clover Hill district, with Miss Cornsilk Gill as vice-chairman. Mrs. S. M. Thornton is in charge of the Southside district. Mrs. S. E. Anderson of the Stonewall district. Claude W. Smith has been appointed [illegible]

Supervisors Vote Prison Road Labor

$100,000 Asked For Road To Bent Creek Senator Ferguson Reports

A resolution was passed at the monthly meeting of the Board of Supervisors, Wednesday morning, asking the judge of the circuit court to issue an order whereby prisoners in the county jail may be taken out to work on the district roads under the supervisor of that district.

Senator Ferguson appeared before the board to report his request before the state highway commission last Friday, in Lynchburg for $100,000 to use in the road from Appomattox Court House to Bent Creek. Senator Ferguson suggested that the money be taken from the $20,000,000 bond issue recently voted by the people of the state's forest is a part of the good sportsman's creed.—Lynchburg Advance.

Lady Fingers

Loving words will cost but little,
Journeying up the hill of life,
But they make the meek and weary
Stronger, braver for the strife.
Do you count them only trifles?
What to earth are sun and rain?
Never was a kind word wasted;
Never was one said in vain.
Sunshine and Roses.

Household Helps

To clean carpets, sprinkle the carpet with tea-leaves; sweep well; then use soap and soft warm water for the grease and dirt spots. This freshens up old carpets marvelously. Rub the wet spots dry with a clean cloth.

If the seats of caned chairs are sagging, turn them upside down, wash well with soapy water, soaking so as to thoroughly wet them, and in drying they will stiffen to almost if not quite their normal condition.

To clean soiled wall paper, take half a loaf of bread and gently rub the soiled portions, working always in a downward direction. Use only the inside is soiled cut off a thin slice.

Brilliant Light—A pinch of salt put into the lamps when they are filled with oil, will cause them to burn with more brilliance.

Good Things to Eat and How was the school—them

In reality, the county has appropriated $1000 less this year for the schools than in 28-29. $40,800.74 of county money was spent in school maintenance, during the last year ending June 30 ,1930, but of this amount, $3,585.93 was a balance left over from the preceding year, so actually the county has appropriated only $37,214 as compared with $38,381 appropriated in 28-29. The balance carried over to that year was approximately $1100. An extra thousand dollars was appropriated that year from the dog tax, which was not allotted to the schools this year.

Hunters Protect The Forest

Now that the hunting season is soon to open in full swing, it is not amiss to caution hunters against a real danger to the forests of the state. Due to th: proionged drought the woods are very dry, the streams are lower than they have been for years and under such circumstances a forest blaze may be a serious thing.

Hunters are perhaps no more careless than others, who invade the forests of Virginia, but they are usually found in the woods at a dangerous period. For that reason they should exercise more than ordinary care in preventing a carelessly tossed cigarette or match from starting a fire that might get out of control. Most Virginia huntsmen are good sports and the protection of the state's forest is a part of the good sportsman's creed.—Lynchburg Advance.

Social Events

Hackett—Schwalter

Miss Maggie Hackett, sister of Mrs. W. E. Bryant, formerly of this county, was married Oct 26 to Mr. Marvin Schuwalter, of Washington, D. C.

The wedding took place at the home of the bride's parents, Mr. and Mrs. A. B. Hackett, near Toga, Va. The Rev. W. J. Saddler, of Buckingham C. H., performed the ceremony.

The bride was gowned in white satin with a veil of rose point lace held in place with orange blossoms, and carried a bouquet of bride's roses and lilies of the valley. Miss Virginia Pugh, of Washington, maid of honor, wore a gown of an chiffon trimmed in lace and carried American Beauty roses. The brides maids, the Misses Hassel and Ruth Hackett wore green & old rose taffeta.

The rooms were beautifully decorated with ferns, evergreen and chrysanthemums. White candles were artistically effective in the archway. Mrs. J. H. Lewis played the wedding march. About seventy-five were present.

Immediately after the ceremony, Mr. and Mrs. Schuwalter left for a motor trip through the Valley of Virginia to Niagra Falls. They will make their home in Washington.

About forty young people of the B. Y. P. U. of the Baptist Church attended a Hallowe'en party held at the Church last Friday evening. Lucille Crawley and Mary Lena Stratton were in charge of the entertainment. Mr. Don Moses and the [illegible] Thompson were [illegible] and constitution through the mediation of the Je[illegible] The centurion was of good report among the Jews. The leaders who were sent testified to the good reputation which he bore in the community. They especially mentioned his benevolent deeds to the Jews.

IV. The Centurion's Humility (vv. 7, 8).

As Jesus was nearing the centurion's house the friends were sent to say to him that he was unworthy for him to come under his roof, but because the case of his servant was so grave, he brushed aside all difficulties and personally appealed for help. Jesus is moved when men realize their utter helplessness and appeal to him for help.

V. The Centurion's Faith (vv. 8-10).

In spite of his unworthiness he committed his case to the Lord. He believed that if Jesus would but speak the word, his servant would be healed. It is most interesting to note his philosophy of authority. He said, "I am a man under authority, having soldiers under, me, and I say to this man, 'Go,' and he goeth, and to another, 'Come,' and he cometh, and to my servant, 'Do this,' and he doeth it." He believed that disease was under control, that Christ could order it about just as he ordered his soldiers about. By faith he saw Christ as completely in authority over the most virulent malady as he himself was in control over the soldiers under him. His faith was so unusual that Christ marveled at it. He did not marvel in the sense of being surprised at it, but marveled at its intelligence. His faith was based upon the true philosophy of the universe; namely, that the universe is based upon a law and Jesus Christ is the Director and Controller of that law. So greatly was Christ pleased with his faith that he declared that it exceeded anything found among the Jews, that many Gentiles would have a place in the kingdom to the exclusion of many Jews.

VI. Christ's Wonderful Power (v. 13).

He said to the centurion, "I will come and heal him" (v. 7). Note his perfect confidence in himself. He did not say, "I will come and see what I can do," but "will heal him." He knew that all power was given unto him by the Father. He did not need to go and touch the centurion's slave, but needed only to speak the word, and it was done. He could heal from miles away as well as when in the presence of a sick person. How wonderful is the power of the Lord Jesus Christ! Let us trust him at all times and under all circumstances.

Felt Bad After Eating

"BEFORE I started taking Black-Draught, three years ago, my health was very bad," writes Mrs. C. C. Carson, 945 Concord St., Beaumont, Texas. "I suffered constantly from constipation. I had headache when I got up in the morning, and I felt dull and sluggish. I hardly ate a meal that my food agreed with me. Frequently I would have gas on my stomach, and felt awful.

"I read about Black-Draught, and I thought it might help me. After I had taken it a little while, I felt much better. It relieves constipation. I keep it on hand so when I need a laxative I will have it. In the three years I have been taking it, I have never found anything as good for constipation."
